JAMES KAY, JUN. PRINTER.

Eastern District of Pennsylvania, to wit:

BE IT REMEMBERED, that on the tenth day of October, in the fifty-third year of the independence of the United States of America, A.D. 1828, Hugh L. Hodge, Franklin Bache, Charles D. Meigs, Benjamin H. Coates, and René La Roche, of the said district, have deposited in this office the title of a book, the right whereof they claim as proprietors in the words following, to wit:

"*The North American Medical and Surgical Journal. Published by the Kappa Lambda Association of the United States. Non doctior, sed meliore imbutus doctrina. Vol. VI.*"

In conformity to the act of the Congress of the United States, entitled, "An act for the encouragement of learning, by securing the copies of maps, charts, and books to the authors and proprietors of such copies during the times therein mentioned;" and also to the act, entitled, "An act supplementary to an act, entitled, 'An act for the encouragement of learning, by securing the copies of maps, charts, and books, to the authors and proprietors of such copies during the times therein mentioned,' and extending the benefits thereof to the arts of designing, engraving, and etching historical and other prints."

D. CALDWELL,
Clerk of the Eastern District of Pennsylvania.

CONTENTS OF VOLUME VI.

No. XI.

ORIGINAL COMMUNICATIONS.

I. Observations on Expansibility as a Vital Property, and on the Influence of the Capillary Tissue over the Circulation of the Blood. By Hugh L. Hodge, M.D., Lecturer on the Principles of Surgery in the Philadelphia Medical Institute. 1

II. Observations on Hereditary Hemorrhage. By Reynell Coates, M.D. 37

III. Case of Epilepsy, successfully treated. By John C. Otto, M.D., one of the Physicians to the Pennsylvania Hospital. 53

IV. Observations on Vaccination; in a Letter addressed to the Committee of the Philadelphia Medical Society appointed to collect facts in relation to the recent occurrence of Small Pox in this city. By John Redman Coxe, M.D., Professor of Materia Medica and Pharmacy in the University of Pennsylvania, &c. &c. 59

V. Observations on the Employment of the Catheter or Sound for arresting Hemorrhage from the Urethra; with Remarks on the probable Modus Operandi of the Instrument. By William Darrach, M.D. [With a Plate.] 66

VI. Observations on the Medical and Chemical Qualities of the Cornus Circinata, or Round-leaved Dogwood. By Joseph H. Robinson, M.D., of St Croix. 70

VII. Kentish's Ointment recommended in the Treatment of Erysipelas. By Charles D. Meigs, M.D. 76

ANALYTICAL REVIEWS.

VIII. Pyrétologie Physiologique; ou Traité des Fièvres, considérées dans l'esprit de la Nouvelle Doctrine Médicale. Par F. G. Boisseau, D.M. &c.
Nosographie Organique. Par F. G. Boisseau, D.M. &c. . . . 78

IX. Recherches Anatomiques et Physiologiques sur la Structure Intime des Animaux et des Vegetaux, et sur leur Motilité. Par M. H. Dutrochet, Docteur en Médecine, &c.
L'Agent Immediat du Mouvement Vital, devoilé dans sa Nature et dans son Mode d'Action, chez les Vegetaux et chez les Animaux. Par M. H. Dutrochet, Correspondant de l'Institut, &c. 92

X. The Life of Edward Jenner, M.D. LL.D. F.R.S. Physician Extraordinary to the King, &c. &c. With Illustrations of his Doctrines and Selections from his Correspondence. By John Baron, M.D. F.R.S. 128

MEDICAL LITERATURE.

XI. Biographical Notice of Samuel Emlen, M.D. By Charles D. Meigs, M.D. 139

XII. Biographical Notice of Henry M. Read, M.D. By D. Theodore Coxe, M.D. 146

BIBLIOGRAPHICAL NOTICES.

XIII. Traité Général d'Anatomie Comparée. Par J. F. Meckel. Traduit de l'Allemand et augmenté de Notes, par MM. Riester, et Alphonse Sanson, Docteur en Chirurgie de la Faculté de Paris. Précédé d'une Lettre de l'Auteur. Tome 1er. 149

XIV. A Practical Treatise on Poisons and Asphyxies, adapted to General Use, followed by directions for the Treatment of Burns, and for the Distinction of real from apparent Death. By M. P. Orfila, Professor of Medical Chemistry, &c. &c. Translated from the French, with Notes and Additions, by J. G. Stevenson, M.D. Boston, 1826. Pp. 230, 12mo. 151

XV. Versuch einer kritischen Geschichte, &c.
An Essay towards a Critical History of the Small Pox, as it occurs subsequent to Vaccination; together with an Inquiry into its Nature, Causes, and Mode of Prevention. By Dr A. F. Luders, Health Officer for Eckenförde in the Duchy of Silesia, Fellow of the Royal Med. Soc. of Copenhagen. Altona, 1824. Pp. 226, 8vo. 154

XVI. An Essay on the Structure, Functions, and Diseases of the Nervous System; defended before the Medical Faculty of the University of Pennsylvania, March 14, 1828, for the Degree of Doctor of Medicine. By John R. W. Dunbar, A.M. of Virginia, &c. 8vo. Philadelphia. J. Dobson. 156

XVII. Memoires sur le Traitement des Anus Artificiels, des Plaíes des Intestins, et des Plaíes Penetrantes de Poitrine. Par J. F. Reybard

de Coisiat, D.M. Ancien Chirurgien des Hôpitaux de Lyons, &c. A Paris, 1827. Pp. 205.
Memoirs on the Treatment of Artificial Anus, Wounds of the Intestines, and Penetrating Wounds of the Thorax. By J. F. Reybard de Coisiat, M.D. 158

XVIII. On the Influence of Medicine. An Oration delivered before the Philadelphia Medical Society, pursuant to appointment. By John Bell, M.D. one of the Corresponding Secretaries of the Society, Lecturer on the Institutes of Medicine and Medical Jurisprudence in the Philadelphia Medical Institute. Feb. 9, 1828. Published by the Society. Philadelphia, 1828. Pp. 36. 164

XIX. American Medical Biography; or Memoirs of Eminent Physicians who have flourished in America. To which is prefixed a succinct History of Medical Science in the United States, from the first settlement of the country. By James Thacher, M.D. Fellow of the American Academy of Arts and Sciences; Honorary Member of the New York Historical Society, and of the New York Horticultural Society, &c.; Author of the American New Dispensatory, of the Modern Practice of Physic, and of the Military Journal. Two volumes in one. 8vo. Boston, 1828. 166

XX. Constitution of the Medical Faculty of Caracas. Pamphlet, Caracas, 1827. 4to. 167

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Anatomy.—1. M. Arthaud on the Formation of the Cellular Tissue. 2. Stomach ending in a Cul de Sac. 3. Biancini on the Communication between the Blood-Vessels of the Uterus and Placenta. 168

II. Physiology.—4. Dr Merriman on the Duration of Pregnancy. 5. New Views of the Fœtal Circulation. 6. Anomalous Dentition. 7. Average Duration of Life. 8. Congenital Absence of Sensation and Voluntary Motion in a Female. 169

III. Pathology.—9. Dr Bayle on Insanity from Chronic Gastro-Enteritis. 10. Small Pox analyzed physiologically. 11. Delirium from Intoxication, viewed physiologically. 12. Hydrophobia generated by Heat. 13. Imaginary Hydrophobia. 14. Tetanus. 15. Apoplexy of the Spinal Marrow. 16. Atrophy, Hypertrophy, and Induration of the Spinal Marrow. 172

IV. Therapeutics, Materia Medica, and the Practice of Medicine.—17. Dysentery. 18. Mercury absorbed into the System. 19. Chronic Bronchitis cured by the External Application of the Acetate of Morphia. 20. Endermic Medication. 21. Intermittent Fever. 22. Tetanus cured by the External Application of the Ace-

tate of Morphia. 23. Borax employed to cure Furfuraceous Herpes. 24. Herpes of the Organs of Generation cured by the Hydrocyanic Acid. 25. Balsam Copaiba without Taste or Odour. 26. Volatile Oil of Copaiba. 27. Iodine successfully used in the Treatment of Enlargement of the Liver and Spleen. 28. Nævus Maternus cured by Vaccination. 29. Muriate of Iron in Gastro-Malacie, or Softening of the Stomach. 30. Tetanus cured by Enemata of Tobacco. 31. Poisoning by a Tobacco Enema. 32. Dry Cupping and Ligature. 33. Cupping after Vaccination. 34. Chlorine as a Preservative from and Cure for the Plague. 35. Inoculation for the Plague, and the Protecting Powers of Olive Oil. . 179

V. Medical Jurisprudence.—36. Homicidical Monomania. . . 188

VI. Surgery.—37. High Operation. 38. Compound Luxation of the Elbow Joint. 39. Amputation at the Elbow Joint. 40. Imperforate Vagina. 41. Ligature beyond the Tumour—Mrs Denmark's Case. 42. Traumatic Tetanus. 43. Inguinal Aneurism—External Iliac tied. 44. Exuberant Callus, dissipated by means of a Seton. 45. Case of Contraction of the Canal of the Larynx relieved. 46. Traumatic Tetanus treated by Cold Affusions. 47. Amputation of the Lower Jaw. 48. Artificial Anus cured. 49. Cancers of the Skin. 50. Traumatic Epilepsy cured by Trephining. 191

VII. Midwifery.—51. Cæsarian Operation. 52. Arm and Shoulder Presentations. 53. Birth of Five Children at one Accouchement. 54. Retention of the Placenta. 55. Diseases of the Placenta. 56. Puerperal Peritonitis cured by Ice. 197

VIII. Chemistry and Pharmacy.—57. Bromine, an Elementary Body. 58. Discrimination of Bromine from Iodine. 59. Discrimination of Baryta and Strontia from one another. 60. New Variety of Borax. 61. Artificial Ultramarine. 62. Analysis of the Water of the Dead Sea. 63. Analysis of Human Milk by M. Payen. 64. Reduction of Silver from the Fused Nitrate. 65. Action between Nitrate of Silver and Linseed. 66. Method of detecting Opium. 67. Extraction of Morphia without the use of Alcohol. 68. M. Girardin's Process for Morphia. 69. Discrimination of the Native Vegetable Alkalies. 70. Formation of Sulphuric Ether. 71. Pyrothonide. 72. Sulphur in Assafœtida. 73. Cantharidin. 74. New Preparation of Copaiva. 198

MISCELLANEOUS ARTICLES.

New Theory of the Spleen.—Impediments in Speech.—Table of the Mortality in the Medical Department of the Philadelphia Alms-House.—Craniology.—Circular of the Medical Department of the Columbian College.—Writ for the Medical Convention of 1830.—Bodies for Dissection.—Translation of Hufeland on Scrofula. 205

No. XII.

ORIGINAL COMMUNICATIONS.

I. On Dropsy. By D. Francis Condie, M.D. 213

II. Observations on Pruritus Vulvæ. By John Ruan, M.D. Fellow of the College of Physicians. 234

III. An Inquiry into the State of the Biliary Secretion in Fever. By William Woodson Waddell, M.D. of Athens, Georgia. . . . 236

IV. Observations on the Injurious Effects of the Stimulating Treatment applied to Articular Tumours which appear to have passed to the Cold or Chronic State, but which nevertheless require a continuation of Antiphlogistics—or a soothing method. Addressed to the Kappa Lambda Society of Philadelphia. By M. Chauffard, Principal Physician of the Hospitals at Avignon, Vaucluse. Translated by D. Theodore Coxe, M.D. 249

V. Removal of the Penis, by means of Dr Mayor's Constrictor, or Ligature Tourniquet. By M. Francois A. Binet, Surgeon of the Hospital De La Croix at Nice, Piedmont. Communicated for this Journal. Translated from the M.S. by D. Theodore Coxe, M.D. 256

VI. History of a Remarkable Case of Obstruction of the Bowels which ended in Recovery. By Franklin Bache, M.D. Physician to the Philadelphia Prison. 262

VII. Observations on the Removal of Foreign Bodies lodged in the Œsophagus. Read before the Philadelphia College of Physicians 30 July 1828. By Henry Bond, M.D. With a Plate. . 278

VIII. Observations on Cancer of the Breast. By Joseph Parrish, M.D. One of the Surgeons to the Pennsylvania Hospital. 293

IX. On the Medical Properties of Iodine. By John Bell, M.D. . . 301

ANALYTICAL REVIEWS.

X. Traité sur Les Gastralgies et Les Entéralgies, ou Maladies Nerveuses de L'Estomac et des Intestins. Par J. P. T. Barras, Docteur en Médecine de la Faculté de Paris, &c. &c. Seconde Edition, revue, corrigée, et augmentée. Quando talis amentia et abusus cessaturus est; et quando aurea mediocritas et sobrietas in territorio medicorum triumphatura? Schmidtmann. Paris. Oct. 1827. Pp. 386. 310

XI. Medico-Chirurgical Transactions, published by the Medico-Chirurgical Society, London. Part II. Vol. XIII. Longman, Rees & Co. London, 1827. 332

MEDICAL LITERATURE.

XII. On the Reciprocal Circulation of Blood between the Mother and Fœtus. By M. Mery.—With Preliminary Remarks. By John Redman Coxe, M.D. Professor of Materia Medica in the University of Pennsylvania. 358

XIII. Exercitatio Anatomica de Motu Cordis et Sanguinis in Animalibus, Guilielmi Harveii, Angli, Medici Regii, et Professoris Anatomiæ in Collegio Medicorum Londinensi.—Apud Harveii Opera omnia. Lond. 1766. 4to. 365

BIBLIOGRAPHICAL NOTICES.

XIV. Elements of Chemistry, including the Recent Discoveries and Doctrines of the Science. By Edward Turner, M.D. F.R.S.E. Fellow of the Royal College of Physicians, and Lecturer on Chemistry, Edinburgh, &c. Edinburgh, 1827. 8vo, pp. 723. 374

QUARTERLY SUMMARY OF MEDICAL INTELLIGENCE.

I. Anatomy.—1. Dr Weber on the Skin. 2. Singular Case of Mutism. 384

II. Physiology.—3. Rumination. 4. State of the Eyes in Amaurosis. 5. Spontaneous Combustion. 6. Case of Amnesia. 7. On the Functions of different parts of the Ear. 8. Five Children at a Birth. 386

III. Pathology.—9. Dr J. A. Smith on Medical Theories. 10. Dr

Abercrombie on Apoplexy. 11. Instrumental Percussion of the Thorax. 389

IV. THERAPEUTICS, MATERIA MEDICA, AND THE PRACTICE OF MEDICINE.—12. The Conservation and Reproduction of the Medicinal Leech. 13. Iodine in Gout. 14. Bloodletting in Peripneumonia in Children. 15. Cases in which the Moxa was successfully applied. 16. Bromine and the Hydro-bromate of Potassa in Scrofula and Goitre. 17. Intermittent Facial Neuralgia cured by Sulphate of Quinia, used according to the Endermic Method. 18. The Warm Bath in Intermittent Fevers. 19. Cases of the Poisonous Operation of Iodine. 20. Melancholy with Aphonia cured by the Actual Cautery. 21. Ammonia in Drunkenness. 22. Erysipelas cured by Cauterisation. 23. Hydrochloruret of Lime as a Remedy in Fever and Dysentery. 24. Treatment of the Epidemic Dysentery which prevailed in Dublin in 1825. 25. Suppression of the Urinary Secretion for more than seven weeks, cured. 26. Good Effects of Cold Affusion. 27. Obstinate Constipation relieved by Injections per Anum. 397

V. MEDICAL JURISPRUDENCE.—28. To determine approximatively a long time after death, whether the Individual died from Poison, and to ascertain the nature of the Poisonous Substance. . 405

VI. SURGERY.—29. Old Luxations. 30. Sanguineous Tumours of the Female Mammæ. 31. Tetanus. 32. Amputation of the Lower Jaw. 33. Chronic Inflammation of the Joints. 34. High Operation. 35. Abscess within the Cranium cured by Trephining. 36. Staphyloraphy. 37. Cold Abscesses. 38. Amputation at the Hip Joint. 39. Cauterisation of the Cornea. 40. Aneurism of the Brachial Artery cured by Pressure. 41. Puncturing the Dura Mater. 42. Concussion. 43. Dissecting Wounds. 44. Treatment of Burns with Raw Cotton. . . . 410

VII. MIDWIFERY.—45. Cæsarian Section. 46. Retention of the Placenta. 47. Abortion. 48. Hysterotomy. 49. Extirpation of the Uterus by Ligature. 419

VIII. CHEMISTRY AND PHARMACY.—50. Action of Muriatic Acid on Albumen. 51. Analysis of Cancerous Matter. 52. Coniin, or Active Principle of Cicuta. 53. Red Ferro-cyanide of Potassium. 54. Dangers from the different Strengths of Pharmaceutical Preparations of the same Medicinal Agent. 55. State of Pharmacy in France. 420
